“ Harry,

We will always remember your great sense of humor and story telling abilities. We were usually laughing at some story you were telling and there usually was always a “little bit” of truth in them but very little 🤔😬 Your laugh and smile were awesome. My best memories of you are when the kids were little and you would come home with another great story about work. Always made us laugh. Thank you.

Your love for your children will be remembered by them always. You left too soon but will not be forgotten. May you Rest In Peace and enjoy your days hunting and fishing in the heavens.
