“ One of My favorite memory of my sister-in-law Johnnie was, she always said to me that we had to go shopping together, because she loved to shop and she knew I did too. Well one day we went to the store to shop., well she shop and shop all the time she's shopping she's asking me how I like the items she had picked. Well low and behold after she was finished shopping, Johnnie informed me that she was ready to go home because her sugar was low, so I had to take home and then go back to the store and finish shopping for myself. After that day she would tell everyone that she likes to shop but she couldn't hang with her sister-in-law shopping. I laugh every time she would tell someone that.
